During summer school following will be covered:

Study program:

Capture, edit and share!

You have a high–end DSLR (digital single lens reflex) camera and make photos only in auto mode?

During this summer course use your DSLR camera to learn the building blocks of photography, then start editing your photos like a pro with Adobe Photoshop. Learn the foundations of web design and create your very own website!

During the course following topics will be covered:

Web design:

Principals of web sites work.

Markup languages grammar (HTML and CSS)

Work in Photoshop (photos retouch)

Fonts, special and visual effects

Content management systems – Joomla, WordPress, Drupal

Security

Photography:

Light for the Photographer and for human eye.

Lenses. Exposure and ISO and why it matters.

Compositions and technique.

Making a portrait, still life and landscape.

Working with models.

Working in studio.

Special effects.

Cultural program:

Vladimir was founded in 990. Since the end of XII till middle XIV century it was the capital of the Central Rus. During that period the city experienced the Tartar invasion. Architecture, art of frescos and icon painting developed here. At the present moment Vladimir is a recognized tourist centre and is included in the Golden Ring of Russia. The city is situated in the central part of Russia and of course reflects all changes in modern Russian society (influenced by Moscow).

The integrated cultural program includes excursions to Moscow, Suzdal and Bogolyubovo, different joint activities with Russian students. The participants will have an opportunity to get close to Russian culture, to visit Russian villages and to get acquainted with Russian cuisine – in the middle of the program a special Russian evening is organized.

During the summer school the participants live in a student dormitory near the university. Meals are available three times a day. All transport costs according to school program, meals, material for seminars are included into the participation fee. The costs for transfer from Moscow to Vladimir (arrival) and back (departure) students have to pay by themselves.
